

POSTER & BORDER MAKING COMPETITION

. It was basically a combination of two activities viz: Poster Making and Border Making. Initially, the choice of theme was given to the students and everyone came up with unique ideas. However, later the theme was limited to only four alternatives. Those were:

1. Inclusive Education
2. Our Nation, Our Pride
3. Health is Wealth
4. Save Environment

The participants had to be in groups of ten. Because everyone was new and the session had just begun, it became a perfect opportunity to befriend others as well as show our talent through creativity and teamwork. The venue of the competition was the classroom itself and the duration was approximately two hours. It was amazing to witness everyone enjoying the task. Each poster was as creative and beautiful as the other. Every border was charming and eye catching. In poster making competition, all four topics were equally utilised by the students as their respective themes. Some illustrated ' Effects of Pollution', 'Mission Indra Dhanush', 'Balance Diet and many more such topics. In border making too, the themes chosen were variant. The judges appreciated everyone which was heart warming as well as inspiring. Everyone explained their theme very well and it was clear that we all enjoyed the activity a lot. It was an amazing experience to participate and make new friends.
