ABOUT GIAST

GIAST, an affiliate of GGSIPU, Dwarka, and a pioneer in Teacher Training was setup under the aegis of Rohini Educational Society in 1999 with the prime objective of nurturing every student – teacher as “responsible” Teacher. The institute is a venture of its own kind where educators and professionals have joined hands to aid direct the agenda of Education.

GIAST is committed to the ever-demanding task of training and preparing futuristic teachers capable of facing and meeting the contemporary challenges in a global set up. The staff and student teachers of this institute, enthusiastically, participate in ever transforming and implementing innovation in the academic and professional horizon.

In today’s highly competitive era, schools are equipping the teachers who are multi- talented to have strong creative skills along with the understanding of students to shape their future. To fulfill the needs of society and to face the challenges of life, the budding teachers are to be prepared to cope with the changing societal and professional needs.

For this, GIAST is providing a platform to enhance the potential of aspirant teachers.

Gitarattan Institute of Advanced Studies and Training has emerged as a widely recognized center of excellence in Teacher Education. GIAST is committed to producing excellent teachers who are highly motivated, globally competitive and are living models of human values. They are capable of transforming acquired knowledge and skills into professional life to nurture the future of the nation.

Keeping the student-teachers' harmonious growth in mind, GIAST keeps on organising professional growth programmes for the teacher-educators, researchers and other stakeholders from time to time. In the series of organising in service programmes, our institute has decided to organise a national seminar.

ON

Boosting Economy by Streamlining Vocational Education in Schools.

"YOUR GRACIOUS PRESENCE IN OUR NATIONAL SEMINAR IS SOLICITED."

BACKGROUND AND RATIONALE

A DYNAMIC ECONOMY BEGINS WITH A GOOD EDUCATION

The National Education Policy 2020 proposes the revision and revamping of all aspects of education, including Vocational Education with the notion of 'Re-imagining the Vocational Education and Skill Building' to be aligned with the aspirational goals of 21st century students.

According to the policy, by 2025, at least 50% of learners through the school and higher education system shall have exposure to vocational education. The development of vocational capacities will go hand-in-hand with the development of academic or other capacities. To achieve this objective, NEP 2020 aims to collaborate with Industrial Training Institutes (ITIs), Polytechnics, Local Industry, etc.

There are still many questions revolving around the successful fulfillment of learner aspirations in harmony with NEP 2020's recommendations for Vocational Education. Establishment of National Vocational Education Qualification Framework (NVEQF) shall provide for vertical mobility to the students with vocational subjects at school level.

The present seminar aims at exploring the views of experts about the concerns how the economy can be boosted by streamlining Vocational Education in schools as reflected in NEP-2020. Though earlier Education Policies also recommended the introduction of vocational education in schools, its implementation bitterly failed. Now again the NEP - 2020 has put forth this recommendation and precariously suggested the means how this inclusion could be achieved and thus helping the youth to manage their livelihood and augmenting the economy of India.

Vocational Education programs, if implemented in the right perspective, can make a real difference in the lives of countless young people and boost the economy as well. In this regard, GIAST has taken a humble initiative to conduct a SEMINAR in order to make Teacher Educators aware of their opinion about boosting the economy by streamlining vocational education in schools.

In the SEMINAR, the experts would express their opinion on the various themes-related points. The ideas that would emerge from their deep thoughts would contribute to a pool of knowledge that may become the guidelines for the participants & their colleagues and other stakeholders.

"THE MORE WE GIVE IMPORTANCE TO SKILL DEVELOPMENT, THE MORE COMPETENT WILL BE OUR YOUTH"

NARENDRA MODI

MAIN THEME:

Boosting Economy by Streamlining Vocational Education in Schools

SUB-THEMES –

- NEP - 2020 - Vocational Education vs. Academic Education
- NEP - 2020 - Vocational Education will meet the same fate as that of Kothari Commissions' Recommendation in this area
